

The 2nd Annual Clean Power & New Energy 2022

Prepared by: Ms. Nur Syafika Azis, IMM Secretariat

Reviewed by: Ms. Aberamy A/P Dayalam, Assistant Manager of IMM Secretariat

Date: 20th – 21st July 2022

Venue: Mandarin Oriental, Kuala Lumpur

Organizer: CT Event Asia

The 2nd Annual Clean Power & New Energy 2022 (The 2nd ACPNE 2022) is the most efficient and targeted event for utility-scale renewable companies. Bringing these technologies together will create more value for participants by enhancing opportunities to network, broadening the scope of education, and providing access to an exclusive audience. Incorporating all renewable technologies will be more convenient and cost-effective for multi-tech businesses and companies specialising in wind or utility solar. This forum will benefit and attracts decision-makers from large-scale developers, corporate buyers, and utilities.

The Institute of Materials, Malaysia (IMM) had the opportunity to become one of the exhibitors at the 2nd ACPNE 2022. The IMM booth was located at Level 1, Mandarin Oriental, Kuala Lumpur and exhibited co-jointly with Materials Technology Education Sdn. Bhd. (Associate Training Partner), Jotac Academy Sdn. Bhd. (Authorised Testing Center) and Eurofins NM Laboratory Sdn. Bhd. (**Recommended 3rd-Party Testing Laboratories in relation to Coating Fingerprint Certificate for retained paint sample**). We attracted and engaged more than 100 visitors by promoting certification programs, conferences, memberships, **coating fingerprinting** and etc. IMM participation was met with an enthusiastic response from the visitors, and it was beyond our expectations. Coating Inspector and Protective Coating Technician are the two most popular IMM Certification Programs that were highly enquired by visitors at the 2nd ACPNE 2022.

On the first day, Datuk Ali anak Biju, the Deputy Minister of Energy and Natural Resources delivered the keynote address at the opening ceremony of the 2nd ACPNE 2022. At the conference, the speakers presented their ideas according to the highlighted topic; **"Shaping the Future of Energy in Asia"**.

The topic highlighted on the second day of the 2nd ACPNE 2022 was **"Future of Global Energy Transformation"**, the speakers presented according to the topic and the conference ended at 5:00 pm. Overall, the 2nd ACPNE 2022 was a successful event where IMM received a lot of responses and enquiries about the IMM Certification Programs.
